Inter-Department Memo

DATE: January 18, 2022
TO: Distribution
SUBJECT: COVID-19 Over the Counter Test Kits
FROM: NASSCO Total Rewards

At home COVID-19 test kits are now covered by your medical health insurance provider, in most plans. Please see below for your options.

Kaiser:

- Kaiser members can pick up a COVID-19 test kit at any Kaiser pharmacy, as supplies are available.
- You may also purchase a test kit from a non-Kaiser pharmacy and submit a reimbursement claim to Kaiser for up to \$12 per kit at kp.org. Please visit www.kp.org for more information about available supplies.

Anthem BCBS/ Prime Therapeutic Pharmacy:

- Members can purchase an at-home test kit at their regular pharmacy. When purchasing a test kit, please request at the pharmacy to bill the cost through your insurance.
- If you buy a kit at an out-of-network pharmacy or online, you can submit a request for reimbursement from Prime for up to \$12 per kit.
- For more information on this process, please visit www.myprimetools.com

SIMNSA:

- At this time, at-home COVID-19 tests are not yet available through the SIMNSA pharmacy program. For testing needs, please continue to use the community testing options currently in place or utilize the option listed below to obtain test kits from the federal government

Other Sources:

- Beginning January 19, 2022, individuals may also request free at-home COVID-19 tests, without shipping fees, from the federal government. More information can be found at www.covidtests.gov.
- Employees may also consider using online retailers such as Amazon, Walmart, Target, and others to purchase their COVID-19 test kits. Please note, in order for these tests to be eligible for reimbursement by your health care plan, the test must be FDA-approved and/or approved with FDA Emergency Use Authorization.

If you have any questions about this new at-home test kit benefit, please contact the NASSCO Benefits office in Bldg. 15, at (619) 544-8518 or email benefits@nassco.com.
