NASSCO

Inter-Department Memo

DATE: June 09, 2020
TO: Distribution
SUBJECT: COVID-19 Update for Employees – Onsite Testing
FROM: NASSCO Communications

We continue to receive reports of positive COVID-19 cases at NASSCO. Many of the recent reports are from individuals that were not experiencing any symptoms, but were positive for the virus.

In order to expand the current safety measures at NASSCO, we are starting an onsite testing program this week to help identify individuals who may not be experiencing any COVID-19 symptoms but may be unknowingly positive for the virus.

Initially, the testing program will be offered to some of our Repair groups. Detailed information and instructions will be provided by their departments.
