NASSCO

Inter-Department Memo

DATE: September 28, 2021
TO: Distribution
SUBJECT: COVID-19 Update for Employees
FROM: NASSCO Human Resources

Last Friday, the federal government announced additional details concerning the COVID-19 vaccine requirement for all federal contractors. In anticipation of this news, we have been taking steps to provide resources to help comply with the impending federal vaccination protocols and will advise on how this will specifically impact NASSCO employees in the coming days.

****ALL employees are strongly encouraged to get a COVID-19 vaccine as soon as possible****

As a reminder, Kaiser Permanente, a state-approved COVID vaccine provider, will be at the shipyard on October 6, offering free Pfizer vaccines to all NASSCO employees. Employees do not need to be a Kaiser member to receive the vaccine, but there are limited appointments available – call NASSCO Medical at (619) 544-8861 (ext. 8861) to pre-register and reserve a spot.

Please share this information with your teams and reference the attached FAQs for additional guidance concerning this vaccination event. Kaiser also has a limited number of one dose Johnson & Johnson vaccines available during the regular onsite Kaiser clinic hours on Wednesdays and Fridays.

Thank you for doing your part in keeping our NASSCO family safe.
