

Environmental Management System (EMS) Audit Training

An auditor may ask you questions about your understanding of NASSCO's EMS. Below are examples of questions that may be asked. You do not need to memorize this information but you do need to know where to find it. You may reference this E-Gram or the stickers/cards mentioned below while speaking with the auditor.

What is NASSCO's Environmental Policy?

(Hint: reference your white card!)

"We are committed to protecting the environment and preventing pollution"

Does NASSCO have any Environmental goals?

(Hint: reference your environmental goals sticker!)

Yes, NASSCO's Environmental goals are:

How do you or your department support these goals?

Some examples of how you may support goals are:

- Use the proper skip tubs for wastes and recyclables
- Put hazardous waste in the correct drum
- Submit a PII with an environmental benefit
- Only print what is needed
- Tag air leaks
- Return unused materials to the Tool Rooms
- Use containment when painting or blasting

For copies of white cards or stickers, please call Environmental Engineering at 619 544-7506 (x7506)

NASSCO is an ISO certified company with strong commitment to safety, quality, environment, and continuous improvement of our management systems and performance.
