

GENERAL DYNAMICS

NASSCO

Inter-Department Memo

DATE: January 28, 2021
TO: Distribution
SUBJECT: Safety Reminder and COVID-19 Update for Employees
FROM: NASSCO Human Resources

It is important we remain steadfast in our commitments to all the protective measures in place at NASSCO facilities. COVID-19 is a serious illness and even one-person sick is too many. Our thoughts are with all our NASSCO families that may be experiencing illness from this pandemic.

While we may be anxious to return to our normal lifestyles, please continue to monitor your health, wear a mask properly covering both your nose and mouth, stay 6 feet from others, and wash your hands. It is important that all employees continue to stay diligent in following all safety protocols and guidelines to reduce the risk of exposure to COVID-19.

Remember, by entering a NASSCO facility, you are agreeing to wear a face covering and you are not experiencing any flu-like symptoms. These safety initiatives are like any other safety regulation, and if you “see something, say something.” Please do your part in keeping the NASSCO family safe and notify your supervisor if you observe anyone not adhering to these safety protocols.

Additionally, the COVID-19 vaccine is now available for all Californians 65 years of age or older. While supplies may still be limited, several local health care providers have the vaccine for distribution and may be reaching out to patients directly. Please note vaccines are not mandatory for NASSCO employees, but are highly encouraged to help protect you, your family and your coworkers.
